

A Very Special Thank You for Including DCI in Your Celebration

On October 2, 2007, Mr. Ehsanur Rahman (Tapu/Ehsan) and Mrs. Samira Parvin (Nahid), were blessed with the birth of twin girls, Suhana "Pushpa" Rahman and Tanisha "Prema" Rahman. Their beautiful daughters are already 1 year old. They celebrated their first birthday on October 4, 2008 in Houston, Texas. All their friends, family members and relatives joined them to celebrate the occasion.

Mr. Ehsanur Rahman is a very successful attorney working Nationally and Internationally. His family is obviously leading a very privileged life but the couple never forgets the hungry and needy. When they were arranging birthday party for their daughters they had a wonderful idea to help the disadvantaged children in the process.

This is what they did in their own words,

"I came to know about DCI from Ms. Daisy of Decatur, Texas. We decided to sponsor DCI through this birthday party. We requested our guests to bring no gift for the twin; however, if they wanted they could bring donation for DCI in an envelope that we provided to each guest.

Our guests sincerely praised the idea of raising fund for the underprivileged kids in Bangladesh, and joined in donating for DCI. I believe more and more family should sponsor this type of fundraising for DCI."

Ehsan & Nahid raised \$1156 in this party. With this money they have decided to support two children, Rasel & Lamia and they donated the remaining money to DCI's general fund to support other programs. Five year old Rasel & Lamia live in a very remote village called Shaula in Potuakhali district. If they did not receive support from this generous family they would have ended up as household servants or in the streets of Dhaka.

Dear DCI friends,

DCI would be so grateful to you if you would consider having DCI be a part of any upcoming gathering you are planning, such as your or your children's birthday, wedding or any other celebration as a way of providing support to disadvantaged children. How this works is that you, the host of the celebration, notify your guests in advance that you plan to donate a portion of the money (some people have very generously donated all of their gifts) received as gifts at the celebration to DCI's Sun Child Sponsorship Program, which seeks to help underprivileged children in Bangladesh lift themselves out of poverty.

Those who have participated in this effort have found that it has made their special day even more memorable. I hope that you will choose to join them in making an enormous difference in the lives of these very deserving children.

Please circulate this message to your colleagues, friends, and family who might be inspired to come forward and help underprivileged children in Bangladesh through this way.

Thank You.—DCI Team

IMAGINE! What Pushpa and Prema will feel when they will understand their 1st party helped change two lives.
